Dear Tony:

On our field trip through the woods yesterday, I noticed we have a pollution problem. It was, & is, located approx opposite the main entrance, 75' from the fence line.

The color of the liquid was about like very dirty wash water & winds down thru the woods eventually ending in the Potomac River.

Apparently is the residue of a photo operation!

Also, the grounds I walked over was badly in need of policing - whisky, beer, paper etc. a lot of which has been tossed over the fence & blown there by the wind.

STATINTL

The pollution mentioned in Bob's note is apparently from the [REDACTED]. This information was obtained from the plumbing shop's [REDACTED]. His explanation was, when the units are washed down the excess material enters the storm drainage system which dumps in the location Bob mentioned.

STATINTL

This information is being given to [REDACTED] to investigate more fully and recommend a solution.

DAVE, I REALIZE THIS IS PROBABLY
AN L.S.D. MATTER, BUT IF YOU
OR ONE OF YOUR MEN HAS AN
OPPORTUNITY WOULD YOU CHECK
TO SEE IF THIS WATER FLOW IS
GENERATED FROM OUR HQ. BLDG.
PLEASE GIVE ME YOUR IMPRESSIONS
